The digital certificate will appear in a pop-up screen or status bar on the document, display a blue ribbon, and declare that the document is certified by Southern Utah University with a valid certificate issued by GlobalSign CA for Adobe®. This document certification can be validated by clicking on the Signature Properties of the document.

The blue ribbon symbol is your assurance that the digital certificate is valid, the document is authentic, and the contents of the transcript have not been altered.

If the transcript does not display a valid certification and signature message, reject this transcript immediately. An invalid digital certificate display means:

- the digital signature is not authentic; or
- the document has been altered; or
- the digital signature has been revoked by the Southern Utah University Registrar's Office for cause; or
- the digital signature has expired.

A document with an invalid digital signature display should be rejected.

A certificate indicating Author Unknown can have two possible meanings:

- The certificate is a self-signed certificate; or
- The certificate has been issued by an unknown or untrusted certificate authority and therefore should not be trusted; or
- The revocation check could not be completed.

If you receive this message make sure you are properly connected to the internet. If you have a connection and you still cannot validate the digital certificate on-line, reject this document.
